administrative and legal process, that the Administrator appointed by the Court is prevented from discharging his duties in restoring proper functioning of the Council. This is a matter of grave public concern, since there are previous malpractices in according recognition to medical colleges, registration of doctors as well as, particularly, those who have obtained foreign medical degrees. The efforts of the Administrator to put a check on these and other ills have been, thus, totally nullified, and the spirit in which the Medical Council has been established as also the Court directions have been totally subverted.

There is an urgent need for discussing the matter on the floor of this House and bringing it to the attention of the Government for early corrective action. Thank you.
